# The Forty-First Report

*of the*

# CENTRAL FREE DISPENSARY

*of* WEST CHICAGO

AT RUSH MEDICAL COLLEGE

For the Year Ending
December 31,
1915

*Located in* SENN HALL OF RUSH MEDICAL COLLEGE
1744 WEST HARRISON STREET

The Central Free Dispensary needs the support of the citizens of Chicago that it may continue and increase its service to the sick poor of this city.

Will you become a member of the corporation or a contributor to it?

Life Membership—$500.

Active Membership—$100 per year.

Associate Membership—$10 per year.

---

I wish to become a..... Member of the Corporation of The Central Free Dispensary. Enclosed is a check for $..... for said membership.

Name.....

Address.....

Date.....

Checks should be made payable to Henry W. Austin, Treasurer.

# The Central Free Dispensary of West Chicago

Organized May 4, 1867. Incorporated April 1, 1873.

## BOARD OF DIRECTORS

### Officers and Executive Committee

Dr. James B. Herrick.....President
Judge Jesse A. Baldwin.....Vice-President
Dr. Oliver S. Ormsby.....Second Vice-President
Mr. James H. Harper.....Secretary
Mr. Henry W. Austin.....Treasurer

### Term Expires January, 1917

Dr. Frank Billings
Dr. James B. Herrick
Judge Frederick A. Smith
Dr. Arthur Dean Bevan
Judge Jesse A. Baldwin
Mr. James Simpson

### Term Expires January, 1918

Mr. H. S. Burkhardt
Dr. William H. Wilder
Dr. Oliver S. Ormsby
Dr. E. Fletcher Ingals
Dr. Bertram W. Sippy
Mr. L. R. Hall

### Term Expires January, 1919

Dr. John M. Dodson
Mr. Asa Bacon
Mr. James H. Harper
Dr. Dean D. Lewis
Dr. J. Clarence Webster
Mr. Henry W. Austin
Mr. George Mason

### Committee on Dispensary Work

Dr. John M. Dodson
Mr. James H. Harper
Dr. Oliver S. Ormsby
Dr. James B. Herrick, Ex-Officio

### Membership Committee

Dr. William H. Wilder
Judge Frederick A. Smith
Asa Bacon

### Finance Committee

Dr. Arthur Dean Bevan
Dr. Frank Billings
Mr. James Simpson

## OFFICERS OF THE DISPENSARY

John E. Ransom.....Superintendent
Mabel M. Dunlap.....Head Nurse

## SOCIAL SERVICE DEPARTMENT

Marie H. Ransom.....Head Worker
Helen A. Carnes
Frances Porter
Mary Viskaskas

## OUT-PATIENT OBSTETRICAL DEPARTMENT

### Nursing Service

Alma E. Foerster.....Nurse in Charge
J. Olive Seger

## PHARMACIST

Henry F. Stecker, R. Ph.

## CLERICAL FORCE

Frank E. Backensto.....Distributor
Elizabeth McMahan.....Record Clerk
Dr. Mary Johnstone.....Diagnosis Clerk

## MEDICAL STAFF

### DEPARTMENT OF GENERAL MEDICINE

Hours 8:30 to 9:30

Drs. Frank Billings, James B. Herrick, B. W. Sippy, B. M. Linnell, John Ritter, Sidney Strauss, Christian Dencker, Hugo Ad Oldenborg, W. W. Dicker, F. O. Frederickson, H. W. Abelman, J. J. Alderson, S. F. Waterman, C. A. Griffith, Harry G. Hardt, Henry J. Ullman, N. C. Nelson, R. S. Berghoff, C. A. Link, B. H. Moore, Abraham Rimmerman, M. B. Leviton, F. A. Chapman, N. S. Davis. Jr., C. D. Vreeland, A. L. Alderson, Charles Sima.

### DEPARTMENT OF PEDIATRICS

Hours 8:30 to 9:30

Drs. John M. Dodson, C. G. Grulee, F. W. Allin, August Strauch, Grace Campbell, G. L. Kaufmann, C. T. Heidel, W. F. Winholt, Loretta Maher, W. H. Hoffman.

### DEPARTMENT OF NERVOUS AND MENTAL DISEASES

Hours 8:30 to 9:30

Drs. Thor Rothstein, J. C. Gill, Sidney Kuh, Peter Bassoe, Josephine Young, S. Krumholz, W. F. Dey, Clara Harrison Town, E. T. Secor, I. L. Meyers.

### DEPARTMENT OF SURGERY

Hours 10:30 to 11:30.

Drs. Arthur Dean Bevan, D. D. Lewis, C. B. Davis, C. G. Davis, D. B. Phemister, V. C. David, Ben F. Davis, Gatewood, D. C. Straus, Walter Meents, Roger T. Vaughan, F. B. McCarthy, A. H. Montgomery, E. M. Miller.

## DEPARTMENT OF SURGERY

### (Genito-Urinary Diseases)

Hours 3 to 4

Drs. W. T. Belfield, R. H. Herbst, H. L. Kretschmar, B. C. Corbus, Theo. Drosdowitz, H. J. Polkey, N. F. McClinton, Alvin Thompson.

## DEPARTMENT OF OBSTETRICS AND GYNECOLOGY

Hours 10:30 to 11:30

Drs. J. Clarence Webster, Carey Culbertson, N. S. Heaney, C. H. Davis, Mary Johnstone, F. H. Harms, W. F. Hewitt, Eugene Cary, Frederick W. Rohr, Paul Fox, Cassie Belle Rose.

## DEPARTMENT OF LARYNGOLOGY AND OTOLOGY

Hours 1:30 to 2:30

Drs. E. Fletcher Ingals, J. E. Rhodes, O. T. Freer, G. A. Torrison, George Shambaugh, Elmer Kenyon, David Fiske, G. W. Boot, T. W. Lewis, S. A. Friedberg, Robert Sonnenschein, H. H. Everett, H. P. Bagley, D. B. Hayden, J. C. Williams, Stephen Hryniewickias, Edw. Norcross, Edw. McGinnis, E. I. Lilly.

## DEPARTMENT OF OPHTHALMOLOGY

Hours 1:30 to 2:30

Drs. William H. Wilder, E. V. L. Brown, J. B. Ellis, C. G. Darling, G. W. Reeder, H. M. Farquharson, E. Hill, William H. Folsom.

## DEPARTMENT OF DERMATOLOGY

Hours 1:30 to 2:30

Drs. Oliver S. Ormsby, E. L. McEwen, W. A. Quinn, E. W. Pothoff, A. N. Mackey, B. B. Beeson, E. A. Oliver, James H. Mitchell.

## TREASURER'S REPORT OF THE CENTRAL FREE DISPENSARY OF CHICAGO

**From January 1, 1915, to December 31, 1915.**

### RECEIPTS

| | | | |
|---|---|---|---|
| Cash on Hand | | $ 1,390.79 | |
| Cash from Investments | 1,560.88 | | |
| Cash from Dispensary | 10,617.39 | | |
| Cash from Contributors | 1,614.00 | $13,792.27 | $15,183.06 |

### EXPENDITURES

| | | | |
|---|---|---|---|
| Salaries | $ 5,533.09 | | |
| Drugs | 2,739.04 | | |
| Supplies and Expense | 1,598.77 | | |
| Social Service and Supplies | 799.15 | | |
| Printing and Stationery | 376.87 | | |
| Filing cases | 171.50 | | |
| Laundry | 294.80 | | |
| X-Ray | 345.00 | | |
| Hospital Fees | 131.25 | $11,989.47 | |
| Cash on Hand, Dec. 31, 1915 | | $ 3,193.59 | $15,183.06 |

## SECURITIES

In Hands of Treasurer:

| | | |
|---|---|---|
| Four Auditorium Bonds, $500 each, 5% interest, February and August | | $2,000.00 |
| Two Chicago Railways Co. Bonds, $1,000 each, 5% interest, February and August | | 2,000.00 |
| Six Chicago Railways Co. Bonds, $1,000 each, 5% interest, June and December | | 6,000.00 |
| Mortgage on Ruch Medical College, 6% | | 11,000.00 |

In hands of Rush Medical College (John Phillips Fund):

| | | |
|---|---|---|
| Three Auditorium Bonds, $1,000 each, 5% interest, February and August | $3,000.00 | |
| Nine Auditorium Bonds, $500 each, 5% interest, February and August | 4,500.00 | |
| One Board of Trade Bond, $100, 4% interest, February and August | 100.00 | $7,600.00 |
| Total amount of securities | | $28,600.00 |
| Cash | | 3,193.59 |
| | | $31,793.59 |

---

I hereby certify that the above statement is correct.

WM. G. ADKINS, Public Accountant.

64 W. Randolph Street, Chicago.

EDWIN M. FULCHER, Accountant in Charge.

Mothers and Babies in Our Post-Natal Clinic

Operating Room of Our Throat, Nose, and Ear Department

Grandmother and Grandchild Coming to the Dispensary for Treatment

## TABLE SHOWING ATTENDANCE IN THE VARIOUS DEPARTMENTS DURING 1915*

| Department | Number of New Patients | Total Visits |
|---|---|---|
| General Medicine | 3,139 | 13,077 |
| Neurology | 635 | 4,411 |
| Paediatrics | 1,858 | 5,056 |
| Massage | 14 | 846 |
| Tuberculosis | 868 | 5,017 |
| Surgery | 2,468 | 8,322 |
| Gynecology and Obstetrics | 1,337 | 6,017 |
| Throat, Nose and Ear | 2,370 | 7,439 |
| Eye | 1,084 | 4,091 |
| Dermatology | 1,718 | 5,389 |
| Genito-Urinary | 1,165 | 7,431 |
| Total | 16,656 | 67,096 |

### SEX OF PATIENTS

| | |
|---|---|
| Male | 8,918 |
| Female | 7,738 |
| Total | 16,656 |

Prescriptions filled ..... 50,086

## TABLE SHOWING INCREASE IN NUMBER OF PATIENTS TREATED FROM 1906 TO 1915 INCLUSIVE

| Year | Number of New Patients | Number of Revisits | Total number of Visits |
|---|---|---|---|
| 1906 | 13,856 | 15,121 | 28,977 |
| 1907 | 15,482 | 17,469 | 32,951 |
| 1908 | 16,208 | 24,438 | 40,646 |
| 1909 | 12,884 | 25,148 | 38,032 |
| 1910 | 14,667 | 30,476 | 45,143 |
| 1911 | 13,948 | 35,167 | 49,115 |
| 1912 | 14,506 | 34,473 | 48,979 |
| 1913 | 15,985 | 39,241 | 55,226 |
| 1914 | 17,072 | 45,660 | 62,732 |
| 1915 | 16,656 | 50,440 | 67,096 |

This table shows a gain of 20% during the nine years in the number of new patients coming to the Dispensary for treatment; and of 233% in the number of revisits. These figures are significant not only in showing the increase in the number of the sick poor of the community who are availing themselves of the service we can render, but they also show a growth in efficiency of the Dispensary in view of the fact that in 1906 the average number of visits per patient was 2.09 and in 1915 it had increased to 4.03.

*For more detailed statistics see page 16.

## ORGANIZATION AND LOCATION

The Central Free Dispensary was organized in 1867, under the title of the Brainard Free Dispensary. At different times it has been located at 232 West Randolph street, 79 West Madison street, 136 North Sangamon street, and 239 West Van Buren street. In 1873 it united with the Herrick Free Dispensary and was for a time located on Wright street near Twelfth street. In 1876 an affiliation was established between the Dispensary and Rush Medical College. At this time the Dispensary removed to the Rush Medical College building and in 1892 was transferred to its present location in Senn Hall of Rush Medical College. Our function is to provide medical service for the sick poor. Our location is admirable for carrying out this function. We are in one of the most congested quarters of the city, in which various relief agencies find heavy demands for their service.

## NUMBER OF PATIENTS GIVEN TREATMENT

During the year 1915, 16,656 new patients came to the Dispensary for treatment. The total number of visits made by patients during the year was 67,096. In the forty-nine years during which the Dispensary has been serving the sick poor of Chicago, it has given treatment to 606,814 patients, who have made a total of 1,357,159 visits to the institution.

## HOURS, ETC.

This Dispensary is open daily except Sundays and legal holidays. The hours for admission of patients are given on pages 5 and 6. All persons who desire to obtain personal knowledge of the necessity for such an institution, its practical benefits to the sick poor and its claims upon the liberality of our citizens, are invited to visit the Dispensary.

## THE SERVICE OF THE DISPENSARY TO THE COMMUNITY

We are accustomed to think of a Dispensary as an institution to which a person who is sick and poor comes to be cured of ills which are either not sufficiently acute or of such a nature that hospital care is necessary. We ought to think of it as a center for the prevention of disease. From the very nature of the institution, many of our patients come to us with incipient illnesses which readily yield to treatment. In such cases the Dispensary not only saves the patient from further trouble from his malady, but also serves the community by

safeguarding its health and conserving its labor resources. A visit or two to the Dispensary may prevent the loss to the head of a family of weeks or months of earning capacity. Likewise it may save the community from caring for this man and his family either through public or private charity, during the period of his incapacity.

## THE DISPENSARY AND THE HEALTH OF THE COMMUNITY

The health of the community is in part dependent upon its individual citizens. Those who are ignorant or careless in matters of personal, household or community hygiene, may not only impair their own health, but prove a menace to the physical well-being of their neighbors. In the education of its patients in matters of cleanliness, personal hygiene, etc., the Dispensary shares with the Visiting Nurses' Association, the Infant Welfare Society and the physicians and nurses of the Department of Health and the Municipal Tuberculosis Sanitarium, in an important community service. A visit to a Dispensary on the part of a somewhat careless mother may give her a never-to-be-forgotten lesson in the value of safeguarding the health of her children by observing the simple laws of cleanliness, etc. The carefulness of the physician or surgeon cannot fail to make its impression upon the patient. As we educate our people in the value of the conservation of health, we are creating public sentiment that will demand increasingly better service on the part of the public health authorities and will give to those authorities a much greater measure of co-operation on the part of the public.

## SOCIAL SERVICE

In every well-organized Dispensary today, the work of the physicians is supplemented by that of the Social Service Department. Such a department co-operates with the doctors in trying to solve the social problems which relate themselves to the physical ailment of the patient. The functions of physician and social worker are so knit into each other that it is somewhat difficult to describe them separately. Social service is a part of efficient medical service. The doctor may prescribe a diet for a patient; the social worker must see to it that the family can and will provide the required food. Hospital or convalescent care is needed; for these the social worker must arrange. Sickness may incapacitate the bread winner of a family; the social service department through co-operation with relief agencies must provide for

the family. When the patient recovers, work suited to his condition may have to be secured. Such important problems as those relating to the victims of chronic disease, the mentally defective, the syphilitic, etc., require skilled workers—both medical and social.

### CASE OF FAMILY CONSERVATION THROUGH CO-OPERATION OF MEDICAL AND SOCIAL AGENCIES

Joseph A. was an Italian laborer. Falling sick, a friend in a neighboring settlement house directed him to Central Free Dispensary. Here it was found that he was suffering from tuberculosis. The doctors felt that sanitarium care might effect a cure. The Municipal Tuberculosis Sanitarium secured his admission to the Tuberculosis Sanitarium at Oak Forest. Joseph's illness left his wife and three children without means of support. Through co-operation with the United Charities and the County Agent, food, clothing, and money for rent were secured. The doctor recommended in the case of one of the children who was sick that she be put on a special diet and placed in a fresh-air room in the public school. Co-operation with the United Charities and the public schools made it possible to carry out both of these recommendations. After several months in the sanitarium, Joseph was discharged cured. Work was secured for him in a sanitary shop, and the family is again self-supporting.

There are other stories which have no such happy ending, but this one will serve to show the necessity for and the interrelation of medical and social service.

### NEED FOR A LARGER SOCIAL SERVICE DEPARTMENT

To render adequate social service to its patients, the Central Free Dispensary needs a larger staff of workers. Efficiency in the Dispensary demands that patients be kept under treatment until those conditions making treatment advisable are corrected. To impress upon the patient the importance of allowing the doctor to carry his treatment to completion is often a difficult task, requiring tact and perseverance. We need more workers to deal with this special problem.

## OUT-PATIENT OBSTETRICAL DEPARTMENT

For several years, the Dispensary in conjunction with Rush Medical College and Presbyterian Hospital, has been giving obstetrical

service to patients in their homes. The remarkable growth of this service is shown in the following table:

| Year | Number of Deliveries |
|---|---|
| 1912 | 129 |
| 1913 | 217 |
| 1914 | 543 |
| 1915 | 748 |

This department provides medical and nursing service for women during confinement. Most of the women desiring this service, come to the Obstetrical Department of the Dispensary for examination, advice, etc. They are then referred to the Visiting Nurses' Association for pre-natal visitation and instruction, except in case of patients who are referred to us by organizations which themselves provide pre-natal care. After delivery, mother and babe are kept under close observation by the physicians of our Out-Patient Obstetrical Department; the Visiting Nurses' Association and Presbyterian Hospital providing nursing service at the same time. Eventually all of these cases are referred to the Post-natal clinic, at the Dispensary, or to a station of the Infant Welfare Society for instruction in feeding and infant care.

---

This service has far-reaching influence. It is an important factor in the campaign for the prevention of infant mortality. It emphasizes in many a home the value of infant life. The carefulness of doctor and nurse, the painstaking instruction given in the Post-natal clinic, teach many patients the infinitely greater value of such service over that of the mid-wife and the traditional methods of infant care.

The growth of this department demands additional medical, nursing and clerical service. This can be obtained only as funds are secured for its support. Surely it is a worthy philanthropy.

## POST-NATAL CLINIC

The Department of Paediatrics of Rush Medical College, realizing the importance of the instruction of medical students in problems of feeding and infant care, recommended the establishment in Central Free Dispensary of a post-natal clinic. Our Out-Patient Obstetrical

Department had found that a considerable number of its mothers had no convenient access to any stations operated by the Infant Welfare Society. Consequently in October, 1915, such a department was opened. The Visiting Nurses' Association details a nurse for this clinic and for visitation in the homes of the mothers who bring their babies to this department.

## ORTHOGENIC DEPARTMENT

Through the generosity of Madame Cyrus H. McCormick, we have been able to establish in connection with Rush Medical College an Orthogenic Department. This work is in charge of Josephine Young, M. D., and Clara Harrison Town, Ph. D. The aim of this department is to make a mental and a medical study of atypical mental cases of all descriptions, to discover any remediable defects which are causative, to correct them if physical in the clinics of the Dispensary or through hospital treatment; or if mental by means of pedagogical and environmental procedure. The pedagogical treatment is given in a school under the direction of a teacher specially trained for the work.

During six months from July 1 to December 31, one hundred and twenty cases were studied by this department. Twenty different social agencies referred cases to this department during this period.

## THE CLAIMS OF THE DISPENSARY UPON THE GENEROSITY OF OUR CITIZENS

The fact has been emphasized in the preceding pages that in order to bring the work of the Dispensary to a higher degree of efficiency, additional workers are needed in our Social Service Department and more internes and nurses in our Out-Patient Obstetrical Department.

This Dispensary should have a well equipped pathological laboratory. It should eventually have its own x-ray laboratory.

All of these needs require money for their fulfillment. The supplying of these needs will enable us to give better service to the sick poor who come to us for treatment. The directors feel no hesitancy in presenting our work to the people of Chicago as a philanthropy worthy of their generous support. There is no group less able to provide for themselves than are the sick poor. There are few needs more fundamental and vital than that of the sick for the service of the physician.

## CONTRIBUTIONS

During 1915 we received the following contributions towards the support of our work:

| | |
|---|---|
| Through J. E. Ransom | $ 319.00 |
| Armour & Co | 250.00 |
| Chicago Telephone Company | 250.00 |
| Bevan, Dr. Arthur Dean | 100.00 |
| Carson, Pirie, Scott & Co | 100.00 |
| Swift & Co | 100.00 |
| Armour, Mrs. P. D | 50.00 |
| Austin, Henry W | 50.00 |
| Baldwin, Judge Jesse A | 50.00 |
| Cummings, D. Mark | 50.00 |
| Deering, James | 50.00 |
| Lathrop, Bryan | 50.00 |
| Beale, William G | 25.00 |
| Becker, A. G | 25.00 |
| Countiss, Frederick D | 25.00 |
| Allen, Benjamin | 10.00 |
| Bentley, Cyrus | 10.00 |
| Chalmers, W. J | 10.00 |
| Farwell, John V., Company | 10.00 |
| Fuller, Morrison & Co | 10.00 |
| Glessner, J. J | 10.00 |
| Hall, L. R | 10.00 |
| Herrick, Dr. James B | 10.00 |
| Leviton, Dr. Max B | 10.00 |
| Sargent, H. E | 10.00 |
| Valentine, L. L | 10.00 |
| Bangs, E. H | 5.00 |
| Haskell, Mrs. G. E | 5.00 |
| Total | $1,614.00 |

Our work bears the endorsement of the Subscriptions Investigating Committee of the Chicago Association of Commerce for the year ending November 30, 1916.

## Statistical Table Showing Number of New Patients and of Re-Visits in the Various Departments 1915

| Month | General Medicine | | Neurology | | Paediatrics | | Surgery | | Gynecology and Obstretrics | | Throat, Nose and Ear | | Dermatology | | Eye | | Genito-Urinary | | Tuberculosis | | Massage | | Total | | Grn'd Total |
